

PT. Berkat Energi Listrindo

COMPANY PROFILE

INTRODUCTION

PT. Berkat Energi Listrindo was established in Jakarta on 8 of August 2018 and is a reputable company with main business ranging from providing high quality spare parts and equipment to delivering operation and maintenance services for various industries.

We have been closely working with our customers in Indonesia for supplying value-for-money parts and services at the highest level of excellence because the commitment to the satisfaction of our customers is our top priority.

If your original supplier no longer exists or a product or part has been discontinued, we have global strategic partners who are leaders in their respective fields with strong technical team to support and supply your needs. Our scope of supply is not just from initial project inception but throughout the entire operating life of the plant.

OUR VISION

To become
a global company with
a comprehensive offering of
the most reliable spare parts and
best performing operation and
maintenance services in various
industries

OUR MISSION

- To foster long-term relationship with our valued customers by providing reliable products and services yet cost efficient in order to meet customer satisfaction
- To promptly respond to our customers' need in obtaining professional services from our experienced personnel with high technical proficiencies

OUR PRODUCTS AND SERVICES

The Number of units or plants under service and maintenance period keeps on increasing and we believe that there is a huge opportunity for us to satisfy our customers' requirements for O&M services and spare parts availability.

We realize that the poorly-managed O&M and unavailability of spareparts may result into extended downtime of equipment and machinery, and the downtime may have a cascading effect to production schedule and cycle time. Therefore, we are ready to cater our customers with our excellent O&M services and a wide range of products for both inventory and ready to use. To name a few, our product portfolio is including but not limited to :

- Engine components
- O-Rings and seals
- Gaskets
- Filter elements
- Pumps
- Compressors
- Bearings and bushings
- Auxilliary equipment
- etc
